Information & Interaction Designer + Research Assistant

Information/interaction designer working at the intersection of digital products, data, and storytelling. I design interfaces, systems, and visualizations that make information and processes accessible, usable, and intuitive so that people can achieve their goals.

Experience

Research Assistant 2025–present FHNW HGK IDCE Basel	<i>Contributing to Text und Bild in Leichter Sprache, focusing on research and visual development for accessible communication, and supporting analysis, coordination, and documentation.</i>
Multidisciplinary Designer 2023–present Freelance Delémont	<i>Design of web platforms, applications, and visual communication materials for public and private clients, combining strategic thinking, information design, and interaction design.</i>
Workshop Facilitator/ Speaker 2024 JDRC Conference Mendrisio	<i>Led a workshop on interface and visualization strategies and delivered a design research talk to a multidisciplinary audience.</i>
Exhibition Assistant Oct–Nov 2024 FHNW HGK, Museum Tinguely Basel	<i>Assisted with digital exhibition interfaces and visitor engagement, collaborating with curators and technicians on seamless experiences.</i>
Visual Communication Designer 2022–2023 AnDiCo Lab Münchenstein	<i>Developed visual identity systems and interface components across print, digital, and spatial formats, ensuring design coherence from concept to implementation.</i>

Education

Digital Communication Environments MA FHNW HGK IDCE 2024
Visuelle Kommunikation und digitale Räume BA FHNW HGK IDCE 2022

Skills
